CONTENTS

No. 1. JANUARY, 1977

SPECIAL REVIEW ARTICLE: Loading and performance of the heart as muscle and pump: Dirk L. Brutsaert and Walter J. Paulus .......................... 1

Analysis of the inotropic: chronotropic selectivity of dobutamine and dopamine in anaesthetised dogs and guinea-pig isolated atria: P. Lumley, K. J. Broadley, and G. P. Levy ........................................ 17

Changes in the pattern of regional pulmonary blood flow after PGF2α infusion in pregnant women: N. J. Secher and L. Heslet Andersen .............. 26

Estimation of ventricular refractoriness in man by the extra stimulus method: B. Olsson, L. Brorson, R. Harper, and L. Rydén ........................................ 31

The combined influence of the stimulus frequency of the vagal nerves and the atrial stimulus interval on the atrioventricular conduction time: E. L. de Beer, H. B. K. Boom, and B. Naafs ........................................ 47

Use of glucagon in the treatment of quinidine toxicity in the heart: K. Prasad .................................................. 55

Reactive hyperaemia in the dog heart: evidence for a myogenic contribution: R. W. Giles and D. E. L. Wilcken ........................................ 64

Myocardial renin-angiotensin extraction in man: A. A. Schoeneberger, S. P. Johnson, and J. M. Sullivan ........................................ 74

Post implantation viability in canine allograft heart valves: D. J. Wheatley and C. G. A. McGregor ........................................ 78

No. 2. MARCH, 1977

Muscular reflex and baroreflex influences on heart rate during isometric contractions: K. A. Streatfeild, N. S. Davidson, and D. I. McCloskey .............. 87

Creatine kinase isoenzymes: their separation and quantitation: E. A. Ogunro, D. J. Hearse, and J. P. Shillingford ........................................ 94

Effect of selected drugs and myocardial infarction on the disappearance of creatine kinase from the circulation in conscious dogs: R. Roberts and B. E. Sobel ........................................ 103

Reactive hyperaemia in the dog heart: inter-relations between adenosine, ATP, and aminophylline and the effect of indomethacin: R. W. Giles and D. E. L. Wilcken ........................................ 113

Left ventricular compliance in acute myocardial infarction in man: J. Bardet, P. Rocha, M. Rigaud, J. P. Bourdarias, and A. Mathivat ........................................ 122

Role of cardiac contractility in hypertrophy from chronic volume loading: B. Wüsten, W. Flemeng, B. Winkler, and W. Schaper ........................................ 132

Screening for carotid junction disease by spectral analysis of Doppler signals: J. J. Baskett, M. G. Beasley, G. J. Murphy, D. E. Hyams, and R. G. Gosling ........................................ 147

Elasticity of frozen aortic valve homografts: R. Parker, K. Nandakumar, N. Al-Janabi, and D. N. Ross ........................................ 156
Partial standing wave formation above an abdominal aortic stenosis: D. L. Newman, J. R. Batten, and N. L. R. Bowden .......................... 160

Praecordial mapping of Q waves and RS ratio changes in acute myocardial infarction: A. P. Selwyn and J. P. Shillingford .......................... 167

Lactate dehydrogenase isoenzymes in the human hypertrophic heart: N. W. Revis, R. Y. Thompson, and A. J. V. Cameron .......................... 172

No. 3. MAY, 1977

Ventilatory effects on pulmonary vascular inflow and outflow patterns: The late S. Rodbard and Hiroshi Murao ........................................... 177

The effect on atrial and ventricular intracellular potentials, and other pharmacological actions of L9146, a non-halogenated benzo(b)thiophene related to amiodarone: E. M. Vaughan Williams, L. Salako, and J. H. Wittig .......................... 187

Free fatty acids and arrhythmias following acute coronary artery occlusion in pigs: A. S. Most, R. J. Capone, and P. A. Mastrofrancesco .......................... 198

Postnatal maturation of noradrenaline uptake and release in cat papillary muscles: M. Tynan, P. Davies, and D. Sheridan .......................... 206

On the relationship between action potential duration and tension in cat papillary muscle: David G. Allen ........................................... 210

Failure of an antagonist of histamine—chlorpheniramine—to modify the pulmonary vascular response to hypoxia in chronic bronchitis: R. D. Stark, R. C. Joshi, and J. M. Bishop .......................... 219

Influence of viability on canine allograft heart valve structure and function: D. J. Wheatley and C. G. A. McGregor .......................... 223

Calcium accumulating and ATPase activity of cardiac sarcoplasmic reticulum before and after birth: W. G. Nayler and E. Fassold .......................... 231

Platelets and the vascular responses to arachidonic acid in dogs: M. Johnson, T. C. Wicks, T. M. Fitzpatrick, P. A. Kot, P. W. Ramwell, and J. C. Rose .......................... 238

Reduced myocardial actomyosin adenosine triphosphatase activity in the ageing male Fischer rat: J. A. Chesky and M. Rockstein .......................... 242

Direct effect of acebutolol on force generation in immature and adult myocardium: D. Sheridan and M. Tynan .......................... 247

Subcellular compartmentation of creatine kinase isoenzymes in guinea pig heart: E. A. Ogunro, T. J. Peters, and D. J. Hearse .......................... 250

Changes of the kinetics of calcium washout from dog heart after ischaemia: Bui-Mong-Hung, M. Appel, and M. de Mendonca .......................... 260

Instruments and Techniques

Bedside measurement of systolic and diastolic time intervals using the stethoscope: D. Abelson and E. A. Kamens .......................... 270

No. 4. JULY, 1977

Effect of regional myocardial ischaemia on left ventricular isovolumic contraction: A. V. N. Goodyer, B. Y. Wong, and R. Langou .... 299

Cardiac function, coronary flow and MVO_2 in hypertrophy induced by pressure and volume overloading: A. B. Malik and A. S. Geha .... 310

Cardiovascular and antiarrhythmic effects of aprindine (AC 1802) during partial occlusion of a coronary artery in the pig: P. D. Verdouw, W. J. Remme, and P. G. Hugenholtz .... 317

Effect of direct current countershock on atrial and ventricular electrophysiological properties and myocardial potassium efflux in the thoractomised dog: M. F. Arnsdorf, D. A. Rothbaum, and R. W. Childers .... 324

Analysis of the interpolation phenomenon in man evaluated by premature atrial stimulation: G. Masini and R. Dianda .... 334

β-adrenoceptor antagonists and the release of creatine phosphokinase from hypoxic heart muscle: W. G. Nayler, A. Grau, and C. Yepez .... 344

Calcium kinetics in the aorta of spontaneously hypertensive rats: T. T. Zsotér, C. Wolchinsky, N. F. Henein, and L. C. Ho .... 353

Collagen metabolism in experimental cardiac hypertrophy in the rat and the effect of digitoxin treatment: H. Turto .... 358

Right and left ventricular compliance in the hereditary cardiomyopathy of the Syrian hamster: A. Mass-Schwartz, R. S. Weinstock, R. L. Wagner, and Walter H. Abellmann .... 367

No. 5. SEPTEMBER, 1977

SPECIAL REVIEW ARTICLE: Normal sodium balance in dogs and in man: W. J. O'Connor .... 375

Electrophysiological changes in the canine atrium and ventricle during progressive hyperkalaemia: electrocardiographical correlates and the in vivo validation of in vitro predictions: Morton F. Arnsdorf, Eugene Schreiner, Miguel Gambetta, Ira Friedlander, and Roderick W. Childers .... 409

Effects of isolated right and left ventricular stretch on regional arteriolar resistance: Robert Zelis, Matthew Lotys, Maurice Brais, Chin-Long Peng, Edward Hurley, and Dean T. Mason .... 419

Cardiac hypertrophy and antihypertensive therapy: S. Sen, R. C. Tarazi, and F. M. Bumpus .... 427

An autoperfusion technique for nonsteady-state vascular pressure-flow analysis in the rat: Gerald M. Walsh, Alfonso J. Tobia, and Edward D. Frohlich .... 434

Mechanisms of hypercapnic pulmonary hypertension: A. Susmano, M. Passovoy, and R. A. Carleton .... 440

Reversal of aconitine-induced tachycardia by prostaglandins in the rabbit Langendorff preparation: Ralph D. Tanz, James B. Robbins, Brian N. Harwood, and Deborah Rightmeier .... 446

Changes in phasic femoral artery flow induced by various stimuli: a study with percutaneous pulsed Doppler ultrasound: F. Mahler, H. H. Brunner, A. Bollinger, M. Casty, and M. Anliker .... 454
Diagnosis of valvular heart disease using transcutaneous Doppler ultrasound: A. O. Brubakk, B. A. J. Angelsen, and L. Hatle 461

Instruments and Techniques
A method of left ventricular ejection fraction estimation from cineangiocardiograms employing a special-purpose calculator: P. J. Bones and H. Ikram 470

No. 6. NOVEMBER, 1977

Haemodynamic changes during tilt after autonomic blockade in spontaneously hypertensive rats: Eddy Noresson, John V. Jones, and Margareta Hallbäck 475

Correlation of the mechanical response of the heart with the norepinephrine overflow during cardiac sympathetic neural stimulation in the dog: Matthew N. Levy, and Benjamin Blattberg 481

Effects of ischaemia and coronary reperfusion on regional myocardial blood flow and on the epicardial electrogram: George A. Beller, William B. Hood, Jr, and Thomas W. Smith 489

Intracoronary versus intravenous nitroglycerin on the transmural distribution of coronary blood flow: Garrett J. Gross and David C. Warltier 499

Effect of aminophylline on coronary reactive hyperaemia following brief and long occlusion periods: W. Schütz, M. Zimpfer, and C. Raberger 507

Effects of oxygen on acute myocardial infarction: a thermographic study in the dog: Arne Malm, Måns Arborelius, Jr, Siv Bornmyr, Bo Lilja, and Ramon Lillo Gill 512

Effects of hypercholesterolaemic serum on aortic explants from normal rats: J. Larrue, C. Desgranges, D. Daret, and H. Bricaud 519

Arterial glucocorticoid receptors: the binding of tritiated dexamethasone in rabbit aorta: Dominique Duval, John W. Funder, Marie-Aude Devynck, and Philippe Meyer 529

Postnatal ultrastructural changes in the cat myocardium: a morphometric study: D. J. Sheridan, M. J. Cullen, and M. J. Tynan 536

Failure of saralasin acetate, a competitive inhibitor of angiotensin II, to diminish alveolar hypoxic vasoconstriction in the dog: C. A. Hales, E. T. Rouse, and H. Kazemi 541

Collagen in the normal and hypertrophied human ventricle: P. G. Caspari, M. Newcomb, K. Gibson, and P. Harris 554

Lack of effect of hypercapnic acidosis on elasticity of cat papillary muscles: Alicia R. Mattiazzi, Horacio E. Cingolani, and Thomas P. Graham, Jr 559

Instruments and Techniques
New approach to local thermodilution: use of pig tail catheters to avoid basic difficulties: Fabio Magrini and Robert C. Tarazi 576

Volume Index 581
