Abstract Book of:
Frontiers in CardioVascular Biology 2016,
Florence, 8th – 10th July
Bienniel Congress of the ESC Council on Basic Cardiovascular Science

CONTENTS

Acknowledgement to graders i
Abstracts Statistics ii

Friday 8 July 2016

Alternative ways to die S1
Cardiovascular glycobiology S2
Novel insights in intercellular communication within the heart S3
Moderated poster session - vascular S4
Heart failure: from protein to phenotype S7
Young investigator award session - heart S8
Biology of high-density lipoproteins: an update S10
Advances in imaging technology for cardiac research S11
Microvascular angina: diagnosis and treatment particularities S12
Mechanisms of cancer-related cardiomyopathy S14
Poster session 1 S16

Saturday 9 July 2016

Epigenetics in cardiac health and disease S43
Vascular remodeling in cardiovascular disease S44
Dysfunctional adipocytes in cardiovascular biology S45
Moderated poster session - heart S46
Microparticles: induced exosomes in cardiovascular pathology S48
Young investigator abstract session - vascular S50
The role of microdomains in beta-adrenoreceptor signalling S52
Sciences within european young researcher community S53
Control of rhythm and rate S54
Platelets: old players revisited S55
Poster session 2 S56

Sunday 10 July 2016

Transcriptional and epigenetic controls of vascular homeostasis S82
Macrophages: new frontier in cardiovascular medicine S83
Developmental basis of cardiac inherited diseases S84
Moderated poster session - genetic, epigenetic & integrative S85
Tissue engineering and repair of the damaged heart S87
Obesity and cardiac microvascular function S88
Late breaking science S90
Poster session 3 S92
Late breaking science posters S117

Author Index S120
