Cardiovascular Research is the international journal of the European Society of Cardiology for basic and translational research, across different disciplines and areas. The Journal aims to enhance insight in cardiovascular disease mechanisms and the perspective for innovation. The Journal welcomes submission of papers both at the molecular, sub-cellular, cellular, organ, and organism level, and of clinical proof-of-concept and translational studies. Manuscripts are expected to provide a significant contribution to the field with relevance for cardiovascular biology and diseases. Manuscripts may be submitted as Original Articles, Short Communications & Method Reports or Reviews. Moreover, the Journal publishes Letters to the Editor and Editorials (the latter are usually invited), as well as comprehensive series of reviews as ‘Spotlight Issues’.

Cardiovascular Research is Abstracted/Indexed In: Biological Abstracts; Chemical Abstracts; Current Contents Clinical Medicine; Index Medicus: Journal Citation Reports®; published by Thomson Scientific; EMBASE/Excerpta Medica; NRR; Biotechnology Abstracts; Nutrition Abstracts; Index to Scientific Reviews; SICL Data Bases.

A subscription to Cardiovascular Research comprises 14 issues (includes Cardiovascular Research Supplements). All prices include postage, and for subscribers outside the UK delivery is by Standard Air. Advance Access contains papers that have reached corrected proof stage, but have not yet been included within an issue. Advance Access is updated daily.
